PROFESSIONAL SUMMARY

Computer Science Engineer with hands-on experience in Web Development and Web Design, skilled in React, TypeScript, JavaScript, TailwindCSS, HTML, and CSS. Proficient in creating responsive, user-friendly interfaces, integrating REST APIs, and building modern UI/UX experiences. Currently expanding knowledge in Quality Assurance and Manual Software Testing, including test case creation, defect tracking, and SDLC/STLC concepts.

TECHNICAL SKILLS

Programming Languages: HTML5, CSS3, JavaScript, SQL

Front-End Development: React.js, TypeScript, TailwindCSS, Responsive Web Design, UI/UX Principles

Web Technologies: RESTful APIs, WebSockets (Socket.io)

Tools & Platforms: Visual Studio Code, GitHub, Postman, Firebase, MongoDB, Netlify, Render, Jira

Quality Assurance: Manual Testing, Test Case Design, Bug Reporting, SDLC, STLC

Data & Analytics: Python (Pandas, NumPy), Microsoft Excel, Google Colab, Data Visualization

PROFESSIONAL EXPERIENCE

Data Science & Machine Learning Intern

Jul 2024 - Aug 2024

YBI Foundation

Virtual

- Engineered end-to-end data preprocessing pipelines and feature modeling frameworks utilizing Python to evaluate predictive models.
- Designed and fine-tuned foundational models for supervised and unsupervised algorithms, boosting analytical metric scoring accuracy.

PUBLICATIONS

Cyber Bullying Detection and Alert System for School

Mar 2026

VIVA-Tech International Journal for Research and Innovation

ISSN: 2581-7280

- Co-authored research on 'CyberShield,' an AI text-classification system for campus safety, and presented its NLP methodology at the National Conference on Role of Engineers in Nation Building (2026).

CORE TECHNICAL PROJECTS

Portfolio - Personal Portfolio Website | React, TypeScript, Tailwind CSS, Framer

2026

Motion, Netlify

- Designed and developed a premium, responsive portfolio website showcasing projects, technical skills, and professional experience with modern UI/UX principles.
- Implemented interactive animations, smooth scrolling, project demo navigation, and responsive layouts to deliver an engaging user experience

ShieldChat - Custom Real-Time Communication Hub & Dashboard | AI, MERN Stack,

2025 - 2026

Render, Socket.io

- Engineered and deployed a secure real-time messaging web application on Render with AI-powered sentence rephrasing and End-to-End (E2E) encrypted communication.
- Integrated REST APIs, WebSockets (Socket.io), and live user status synchronization to deliver seamless real-time messaging and collaboration.

CyberShield - AI-Powered Safety Classification System | Python, NLP, Firebase, React,
Javascript, Socket.io

2025 - 2026

- Developed and deployed an AI-powered cyberbullying detection platform on Render with real-time monitoring dashboards and automated alert notifications for educational environments.
- Integrated an AI assistant chatbot to provide interactive user support, platform guidance, and dashboard assistance.

CERTIFICATIONS & ACHIEVEMENTS

- **React for Developers** – Insosys Springboard
- **Introduction to MongoDB** – MongoDB
- **Python** – Insosys Springboard
- **Data Analytics for Data Science** – Viva Institute of Technology (Value Added Course)
- **Cyber Security & Privacy** – NPTEL, IIT Madras (2025)
- **Cyber Security Certification** – Atos Prayas Foundation & ICT Academy, Grade A (August 2025)

EDUCATION

University of Mumbai <i>Bachelor of Engineering in Computer Science (AI & ML)</i>	Virar, Maharashtra <i>2023 – 2026</i>
Theem College of Engineering <i>Diploma in Computer Science & Engineering</i>	Boisar, Maharashtra <i>2020 – 2023</i>
